

HINESHA BORAD

SUMMARY

“Full Stack Developer with hands-on experience in building responsive web applications using React.js, Node.js, and MongoDB. Passionate about clean code, scalable design, and agile development. Proven ability to collaborate across teams and deliver impactful solutions.”

EDUCATION

Silver Oak University

BCA | 2022 – 2025 |

CGPA: 8.75

Krutika Vidhya Mandir

HSC | March 2021 |

Percentage: 68.86%

SSC | March 2019 |

Percentage: 81%

TECHNICAL SKILL

Web Development: HTML, CSS, JavaScript

Frontend Development: React.js, Bootstrap

Programming Languages: Java, Python, JavaScript, C, C++, PHP

Database Management: SQL

Deployment: Netlify

SOFT SKILL

Communication

Time Management

Hardworking

Leadership & Teamwork

Highly Adaptable

CERTIFICATES

“1st Place Winner AAVISHKAR 2024, Silver Oak University.”

PROJECTS

Personal Portfolio

May 2025

Technologies: HTML, CSS, React.js

- Designed and developed a personal portfolio website to showcase skills and projects, helping to attract potential clients and employers.

Parking Management System

April 2025

Technologies: React.js, Node.js, MongoDB

- Developed a responsive web app to track parking availability and manage bookings.
- Implemented real-time updates using MongoDB and RESTful APIs.

Edusity Website

September 2024

Technologies: HTML, CSS, JavaScript, React.js

- Developed a responsive portfolio website to showcase skills, projects, and contact information, enhancing professional visibility.
- Integrated interactive elements to ensure accessibility and engagement across various devices and platforms.

Digital Learning

April 2024

Technologies: HTML, CSS, JavaScript, Node.js, MongoDB

- Built an online platform offering free Swift, Java, Kotlin, C++, C#, and Python courses aimed at intermediate-to-advanced learners.
- Designed a responsive, mobile-friendly interface with clear course listings and durations to boost accessibility and engagement

WORK EXPERIENCE

Codequality Technologies (Internship)

June 2024

- Assisted in developing UI components for internal web applications using React.js.
- Worked on debugging and optimizing frontend performance.
- Collaborated with senior developers for real-time feedback and agile development cycles.
